1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel R. McClure on 10/28/04.

The application has been amended as follows:

Claim 2, lines 1-2, change "the gate electrode" to --each of the gate electrodes--.

Claim 8, line 10, change "thin" to --tin--.

Claim 9, lines 1-2, change "the gate electrode" to --each of the gate electrodes--.

2. The following is an examiner's statement of reasons for allowance: The major difference in the claims not found in the prior art of record is a thin film transistor-LCD comprising: a contact hole via the insulating layer, source/drain electrode layer, and gate insulating layer, exposing a part of the surface of transparent substrate between the adjacent gate electrodes; a transparent conductive layer on the transparent substrate; and a light-shielding matrix directly above the contact hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
